

IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A method of composing a list of TV or radio programs from a given transmission schedule of the programs, comprising the acts of:
 - (a) selecting a program from said schedule and adding it to the list,
 - (b) graphically representing the programs of the list as bars over a timeline, the length and position of each bar along the timeline corresponding to the duration and time of transmission of the corresponding program,
 - (c) displaying programs or parts of programs overlapping in time as partially overlapping and overlapped bars such that the ~~length and position~~ lengths and positions, along the timeline of an overlapping bar and an overlapped bar still ~~indicates~~ indicate the duration ~~duration~~ and time ~~times~~ of transmission of the corresponding ~~program~~ programs, wherein the overlapping bar and the overlapped bar at least partially superpose ~~overlap~~ in position,
 - (d) repeating steps (a), (b), and (c) until the list is complete wherein a priority is assigned to some or all of the programs on the list, and programs or parts of programs overlapping in time are processed according to their priorities, and wherein the values of the priorities are automatically initialized according to the sequence in which the programs are added to the list.

2-3. (Canceled)

4. (Currently Amended) A method of composing a list of TV or radio programs from a given transmission schedule of the programs, comprising the acts of:

(a) selecting a program from said schedule and adding it to the list,

(b) graphically representing the programs of the list as bars over a timeline, the length and position of each bar along the timeline corresponding to the duration and time of transmission of the corresponding program,

(c) displaying programs or parts of programs overlapping in time as partially overlapping and overlapped bars such that the ~~length and position~~ lengths and positions of an overlapping bar and an overlapped bar still ~~indicates~~ indicate the ~~duration~~ durations and ~~time~~ times of transmission of the corresponding ~~program~~ programs, wherein the overlapping bar and the overlapped bar ~~overlap at least partially superpose~~ in position,

(d) repeating steps (a), (b), and (c) until the list is complete wherein a priority is assigned to some or all of the programs on the list, and programs or parts of programs overlapping in time are processed according to their priorities and wherein overlapping programs of the list are visually ordered as being in the foreground and in the background, respectively, and that the program in the foreground has the higher priority.

5. (Currently Amended) ~~A The method according to as claimed in~~
claim 1, wherein the list is used to control the recording of
programs on a recording device.

6. (Currently Amended) ~~A The method according to as claimed in~~
claim 1, wherein the list is used to control the display of
programs on an audio and/or video reproducing device.

7. (Currently Amended) A controller for an audio and/or video
recording and/or reproducing device, ~~including said controller~~
~~comprising:~~

(A) a memory for storage of ~~the a~~ schedule of available TV or
radio programs,

(B) an input device allowing a user to enter selections,

(C) a display unit for graphically representing programs of a
list of programs,

the controller being adapted to

(D) execute ~~a the method according to as claimed in~~ claim 1, in
order to compose a list of programs,

(E) control the audio and/or video recording and/or
reproducing device so as to process the programs according to said
list.

8. (Currently Amended) A method of composing a list of TV or radio programs from a given transmission schedule of the programs, said method comprising the acts of:

(a) selecting a program from said given transmission schedule and adding it to the list,

(b) graphically representing the programs of the list as bars over a timeline, the length and position of each bar along the timeline corresponding to the duration and time of transmission of the corresponding program,

(c) repeating steps (a) and (b) until the list is complete, wherein a priority is assigned to some or all of the programs on the list, and programs or parts of programs overlapping in time are processed according to their priorities, wherein programs that are overlapping in time that have different priorities are visually represented as a higher priority program overlapping a lower priority program, and wherein programs or parts of programs overlapping in time are displayed as bars at least partially overlapping-superposed in position such that the length-lengths and position-positions of an overlapping bar and an overlapped bar still indicates-indicate the duration-durations and time-times of transmission of the corresponding ~~program~~ programs along a timeline.

9. (Currently Amended) ~~A~~ The method according to as claimed in claim 1, comprising wherein said method further comprises the act of;

_____reordering priorities of programs displayed on the list by selecting a partially overlapped program.

10. (Currently Amended) ~~A The method according to as claimed in~~
claim 9, wherein the selecting is performed by clicking on the partially overlapped program.

11. (Currently Amended) ~~A The method according to as claimed in~~
claim 9, wherein the selecting is performed by verbally selecting the partially overlapped program.

12. (Currently Amended) ~~A The method according to as claimed in~~
claim 9, wherein the selecting is performed by pointing at the partially overlapped program.

13. (Currently Amended) ~~A The method according to as claimed in~~
claim 4, ~~comprising wherein said method further comprises the act~~
~~of:~~
_____reordering priorities of programs displayed on the list by selecting a partially overlapped program.

14. (Currently Amended) ~~A The method according to as claimed in~~
claim 13, wherein the selecting is performed by clicking on the partially overlapped program.

15. (Currently Amended) ~~A-The method according to as claimed in~~
claim 13, wherein the selecting is performed by verbally selecting
the partially overlapped program.

16. (Currently Amended) ~~A-The method according to as claimed in~~
claim 13, wherein the selecting is performed by pointing at the
partially overlapped program.

17. (Currently Amended) ~~A-The method according to as claimed in~~
claim 8, comprising the act of reordering priorities of programs
displayed on the list by selecting a partially overlapped program.

18. (Currently Amended) ~~A-The method according to as claimed in~~
claim 17, wherein the selecting is performed by clicking on the
partially overlapped program.

19. (Currently Amended) ~~A-The method according to as claimed in~~
claim 17, wherein the selecting is performed by verbally selecting
the partially overlapped program.

20. (Currently Amended) ~~A-The method according to as claimed in~~
claim 17, wherein the selecting is performed by pointing at the
partially overlapped program.
